Sébastien Lecommandoux

Kris Matyjaszewski

Jian Ping Gong

Charlotte Williams

Winner EPF 2025 Prize

SPECIAL THEMATIC SESSIONS

will cover a wide array of topics, including:

- Advances in Polymer Synthesis
- Green polymer synthesis
- Supramolecular polymer systems, Dynamic networks and Vitrimers
- Polymers for Biological, Medical and Food Applications
- Physics, Physical Chemistry of Polymers
- Modern Characterization Techniques
- Rheology and Polymer Processing
- Additive Manufacturing
- Polymer systems for reduced carbon footprint
- Recycling Techniques & Design for Recycling
- Nanostructured Polymers, Composites, Blends and Soft Matter
- Theory, Modelling and AI Approaches of Polymers and their Properties
