

# ESPS 2018

## The 5<sup>th</sup> European Symposium of Photopolymer Science

Mulhouse, France      September 3-6, 2018

[www.esps.uha.fr](http://www.esps.uha.fr)

ESPS 2018 follows the successful previous meetings in Mulhouse (2010), Torino (2012), Vienna (2014) and Leipzig (2016). ESPS aims to bring together the recent and challenging achievements from both academia and industry in the field of photochemistry, kinetics, structural and mechanical properties of photopolymers.

Ample time for discussion will be provided in the program in order to emphasize the workshop character and to stimulate the exchange of new ideas.

The program will be mainly based on invited talks given by eminent scientists working in the field of photopolymers. In addition, contributed papers as well as posters will be accepted. Students are particularly encouraged to submit and to present their work. The three best student posters will be awarded with Young Scientists Poster Awards.

### Venue

The meeting will be held at Faculté des Sciences et Techniques 18, rue des Frères Lumière, Mulhouse.

The city is easily reached by the railway station or by plane (Euroairport at 30 km).

### Important dates

- Abstract submission: Mai 15, 2018
