

TAD CONFERENCE

Transition Analytics for Decarbonization

1-3 OCT
2025
PARIS

More information :

www.tadconference.com

tadconference2025@gmail.com

An international conference focused on addressing the
Challenges in Analytical Chemistry related to the
Energy Transition and **Sustainable Development**.

CO₂ capture,
utilization and
storage

Plastics &
composites
end of life

Photovoltaic
energy

Hydrogen

Bioressources

Li-ion
batteries

Six thematic half-days :

- One **academic Keynote**,
- One **industrial Keynote**,
- 4 **oral presentations**
- **Round-table** discussion
- **Poster room** during coffee and lunch break, with manufacturer's solutions

Organized by CNRS and
iC2MC, CR2ME, and
PIC joint laboratories

Expected ~200 attendees/session
